

Vegetable Seed Project: Ex-Trainees' Follow Up Seminar

On February 21, 2017, Vegetable Seed Project organized “Ex - Trainees' Follow Up Seminar” in Seed Certification and Plant Protection Center, Gannoruwa. Since the beginning of the Vegetable Seed Project, 37 Department of Agriculture (DoA) officers have been sent to Japan for trainings and 14 people (DoA officers and private seed producers) have participated in the Training in Thailand organized by World Vegetable Centre, East & Southeast Asia. Total 12 joint group presentations by ex-trainees were conducted covering all the trainings on Vegetable Seed Production Technology, Quality Control System of Seeds & Seedlings, Seed Testing, Seed Health Testing, Plant Health, Development of Farm Machinery, and Information & Communication Technology for agricultural information use. Every presentation showed the substantial applications/ progress on the modified applications of the acquired knowledge and experiences according to the Sri Lankan Context.
